CATALOGUE

Your turbocharger specialist in commercial diesel engines

ČZ a.s. is a multi-branch company with a tradition of more than 90 years of engineering production.

More than 80 percent of its production is for the automotive industry.

Production of turbochargers was started based on license of company KKK in 1982. Subject of this license were K27 and K36 type turbochargers.

In 1986 all obligations following from this license were closed.

Further development and mainly complement of types with the unified family C1 in 1993 was carried out with own development of Turbo division.

At present ČZ a.s., Turbo division is producing series turbochargers of three unified families - C1, C2, C3 for diesel engines with power output 25 – 400 kW. Through continuous further development we extend the product range of a new TC family C0 for all fuel engines with power up to 50kW.

ČZ Turbo CHRA IN OE QUALITY = NO REPLACEMENT
